

MAC IMPAX SELF DRILL & MAC STITCH SCREWS

LONG LIFE

DESCRIPTION:

MAC Impax and MAC Stitch fasteners provide the same performance as Impax fasteners plus added benefit of a corrosion proof 300 series stainless steel capped head.

- Provides quick penetration through high-strength panels and multi-thickness materials. Ultimate performance in light, medium and heavy gage applications.
- Precision cold forging and advanced heat-treating technology ensure superior strength and exceptional torsional strength during installation.
- MAC long life head can never red rust and come with a rust warrantee.
- Assembled with a EPDM seal washer for watertight installation.
- MAC has a lower profile than our ZAC head fasteners
- MAC Impax and MAC Impax Stitch fasteners can be painted to match your panel color.
