

ECLIPSE LO-PROFILE WOODBINDER SCREWS

DESCRIPTION:

Designed for metal roofing attachment, when a clean low profile look is desired. Rust protection is provided by zinc plating and all Eclipse screws are painted including mill finish screws painted silver.

- Low profile Torx drive head.
- Zinc plating and painting provide corrosion protection
- EPDM seal washer for a water tight seal.
- #10 diameter with special deep thread to provide high pullout resistance
- Can be painted to match your panel color
- Metal attachment on pole building sidewalls
